DMS for the 'Last Mile'
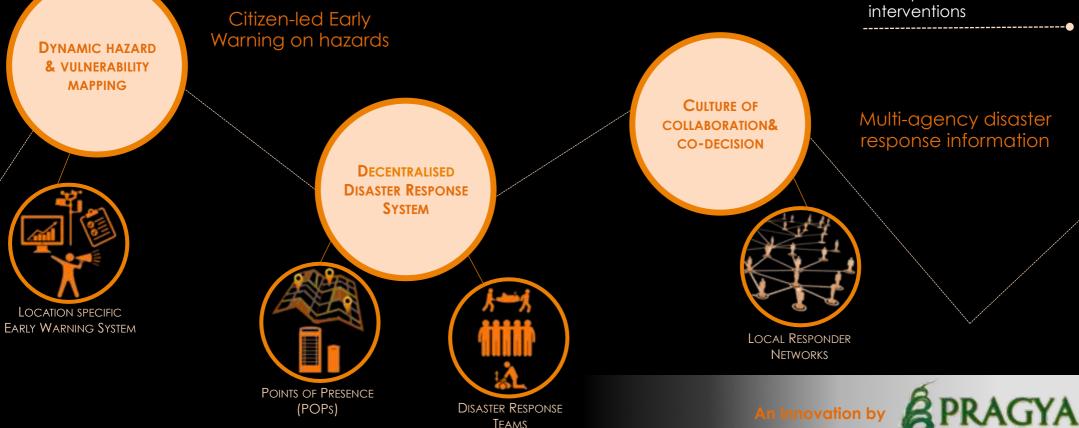

Fortified and comprehensive community based DRR

>> Enhanced local preparedness & resilience

>> Reduced risk of disasters

>> Improved humanitarian interventions

DYNAMIC HAZARD & VULNERABILITY MAPPING

Citizen-led Early Warning on hazards

CULTURE OF COLLABORATION& CO-DECISION

Multi-agency disaster response information

DECENTRALISED DISASTER RESPONSE SYSTEM

LOCATION SPECIFIC EARLY WARNING SYSTEM

POINTS OF PRESENCE (POPs)

DISASTER RESPONSE TEAMS

LOCAL RESPONDER NETWORKS

An innovation by **PRAGYA**

KEY CHALLENGES

Nature Flood Children Death Rescue Disease
GLOF Hailstorm DISASTER Flashflood Famine Mudslide Water Farmers People Pain
Rehabilitation Blizzard Earthquake Avalanche Drought Safety Hunger Snowstorm Trigger Vulnerability Cloudburst Desertification Landslide Youth
HAZARD Shock Pastoralists Relief Poverty Lost Loss
Nature

- - - - - - - Increasing frequency & severity of disasters

- - - - - - - Isolated communities with low resilience to disasters

- - - - - - - Amplified impact on the vulnerable - children, women, elderly and the poor

- - - - - - - Weak infrastructure, inadequate welfare facilities and responder services

- - - - - - - Lack of information for forewarning, relief and risk reduction

- - - - - - - Weak mechanisms for disaster management & coordination of humanitarian response

Consultations on stakeholder needs and roles

Integrating lessons from disaster response

DMS for the 'Last Mile'

Fortified and comprehensive community based DRR

Nepal earthquake, Nepal, 2015

Kashmir flood, India, 2014

Uttarakhand flood, India, 2013

Leh Flashflood, India, 2010
